

FOUNDATION FOR ENVIRONMENT CLIMATE AND TECHNOLOGY

Programmer /Web Developer

We are looking to hire a versatile, reliable and conscientious individual skilled in web development, system administration, and is willing to be a team player to support a non-profit scientific, engineering and socio-economic research think-tank which aims to harness science to benefit the vulnerable and the environment. A person who possesses a Diploma in Computer Science, Information Technology or equivalent experience is preferred.

Essential IT Skills

- Scientific programming languages.
- Wordpress content management system
- HTML Skills
- PHP & MySQL Skills
- Aesthetic sensibility in web development.
- Attention to detail and English writing skills

Useful Related Skills

- High quality writing in English
- Ability to learn quickly as needed.
- Documentation, record keeping and communication skills
- Ability to help less skilled staff.

Preferred Skills

- Proficiency in Linux/Unix and other Operating Systems
- PC hardware and System Administrator Skills
- Competency in image processing, GIS and other scientific software
- Proficiency in Graphics and Publishing Suites (CS5 or CorelDraw)
- Proficiency in advanced web development software (e.g. Dreamweaver)
- SQL query skills in MySQL
- CSS Skills
- Knowledge in javascript and Ajax like frameworks

The best fit is a person with good interpersonal skills who is adaptable and flexible and can handle tasks in multiple areas. The motivated individual who is able to fulfill these tasks has the opportunity to undertake research in areas of scientific computing in interaction with skilled scientists and social scientists and associated staff. The assignment is to commence immediately. The job is to be full time on contract basis, in Digana Village and in office around Kandy. To apply, send (1) a resume (2) names of two professional referees who are familiar with your work, and (3) a statement as to why you are interested in this position by the deadline to:-
